1 Summary of Performance

1.A Introduction

The Jigawa State Budget Implementation Report (BIR) is prepared on a quarterly basis and issued within twenty-eight (28) days following the end of each quarter of the fiscal year, in line with established public financial management reporting standards.

All data reported and cited in this document are based on submissions and records received from Ministries, Departments and Agencies (MDAs), as well as other relevant administrative data sources available at the time of reporting. Comprehensive and fully validated information on the State's revenue and expenditure performance will be presented in the Audited Financial Report. Accordingly, this Quarterly Budget Implementation Report provides indicative information on budget execution and performance during the period under review. For a complete and validated assessment of the State's financial performance, reference should therefore be made to the Audited Financial Report.

This report is prepared based on the revised approved budget appropriations for the 2025 fiscal year, disaggregated by organizational unit and across the core economic classifications of expenditure, namely: Personnel, Overheads, Capital, and Other Expenditures. During the third quarter of the fiscal year, two budget laws were enacted on 29 September 2025. The first, Law No. 07 of 2025, authorised a Supplementary Budget Appropriation, which increased the State's total budget by ₦58.0 billion, raising the overall budget size from **₦698.300 billion** to **₦756.300 billion**. The second, Law No. 08 of 2025, approved budget adjustments through reviews and virements, allowing for the reallocation of resources across expenditure heads to enhance fiscal performance and better align spending with emerging priorities.

As a result of the supplementary appropriation and budget reviews, the original personnel cost provision was revised upward from ₦90.731 billion to ₦91.045 billion. Other recurrent expenditure increased from ₦70.172 billion to ₦79.746 billion, while capital expenditure rose from the original estimate of ₦537.938 billion to ₦585.540 billion. In addition, the State Legislature is currently considering a second budget review for the fiscal year, which comprises further virement adjustments and resource reallocations in the final quarter.

This report presents the actual expenditures for the fourth quarter (Q4), attributed to each organizational unit, alongside cumulative year-to-date expenditures and the corresponding balances against approved revenue and expenditure appropriations.

The Fourth Quarter (Q4) Budget Implementation Report is therefore assessed against the 2025 revised approved budget estimates, otherwise referred to as the final budget. The constituent components of the Jigawa State final budget comprise total recurrent revenue, including opening balance, of ₦509.220 billion, and total capital receipts of ₦247.080 billion, resulting in an aggregate revenue budget of ₦756.300 billion.

On the expenditure side, the revised approved budget provides for total personnel costs of ₦91.257 billion, total other recurrent expenditure of ₦76.203 billion, and total capital expenditure of ₦588.840 billion.

The core economic classifications refer to:

- Personnel – Economic Sub-Account Type 21
- Overheads - Economic Account Class 2202
- Capital - Economic Sub-Account Type 23
- Others - Economic Account Classes 2203-2209 as applicable

The Ministry of Budget and Economic Planning compiles this Budget Implementation Report (BIR) based on budget outturns gathered from various sources, specifically the Ministry of Finance, Office of the State Accountant General, Departments, and State MDAs. The report is also published on the State and Ministry of Budget and Economic Planning websites at www.jigawastate.gov.ng and www.jsbepd.org, respectively.

1.B Revenue Performance

Overall, revenue performance during the 2025 fiscal year demonstrates strong progress. Total accrued revenue as at the end of the fourth quarter (Q4), inclusive of the opening balance, amounted to approximately **₦630.278 billion**, representing 83.3 per cent of the total revised appropriated revenue of **₦756.300 billion**. This level of outturn reflects an excellent overall revenue performance relative to the approved budget.

Disaggregation by revenue source shows that the Government's share of Federation Account Allocation Committee (FAAC) receipts recorded the strongest performance. Actual FAAC receipts totalled ₦353.276 billion, equivalent to 108.5 per cent of the revised appropriation of ₦325.700 billion, indicating favourable federation revenue flows during the fiscal year.

In contrast, Independent Revenue (IGR) performance remained below target. Actual collections amounted to ₦35.368 billion, achieving 42.2 per cent of the revised estimate of ₦83.522 billion, reflecting persistent structural and administrative constraints to domestic revenue mobilisation.

Similarly, Other Receipts, comprising Aids and Grants as well as Capital Development Fund (CDF) receipts, totalled ₦144.676 billion by the end of Q4. This represents 58.6 per cent of the revised estimate of ₦247.078 billion, largely reflecting the timing of disbursements and conditionalities associated with development partner-funded projects.

1.C Total Expenditure Performance

As of the end of the fourth quarter of the 2025 Budget, overall expenditure performance reflects prudent fiscal management and strong execution across key areas. Total recurrent expenditure recorded an outturn of 88.6 per cent of the revised appropriation, indicating a

good overall performance. Within this category, personnel costs slightly exceeded the approved provision, achieving 101.5 per cent of the revised budget. This variance is attributable to approved staff recruitments and promotions implemented during the fiscal year and represents a very good expenditure outcome within established administrative controls. Overheads and other recurrent expenditure recorded an outturn of 73.2 per cent of the revised appropriation, reflecting strong expenditure control and fiscal discipline, particularly in the prioritisation of essential operational spending.

Capital expenditure achieved 71.5 per cent of the revised appropriation by the end of Q4, demonstrating an excellent level of budget implementation and sustained progress in the execution of infrastructure and development projects across MDAs.

It should be noted that outstanding expenditure reconciliations for a limited number of projects and programmes are ongoing. These will be fully captured and validated in the Full-Year Budget Performance Report and the Audited Financial Statements, in line with established financial reporting procedures.

1.D Recurrent Expenditure Performance

Details of expenditure performance are presented in the relevant tables in the appendices. Against the total revised recurrent expenditure appropriation of ₦167.460 billion, an actual recurrent expenditure outturn of ₦148.441 billion was recorded as at the end of the fourth quarter, based on available data. This represents approximately 88.6 per cent of the revised recurrent appropriation and indicates a strong level of budget execution. Any instances of overspending identified during the reconciliation process will be reviewed and appropriately addressed in the Full-Year Budget Performance Report.

Personnel cost expenditure as at the end of the fourth quarter amounted to ₦92.662 billion, representing 101.5 per cent of the revised approved estimate of ₦91.257 billion. The marginal over-expenditure is primarily attributable to the recruitment of teachers to address staffing gaps in the State's basic education sector, as well as the implementation of approved staff promotions during the fiscal year. This level of performance is considered very good, and all related adjustments will be fully reconciled and validated in the Full-Year Budget Performance Report and the Audited Financial Statements.

Overhead and other recurrent expenditure recorded an outturn of ₦55.779 billion, representing 73.2 per cent of the revised appropriation of ₦76.203 billion. This outcome reflects prudent expenditure management and effective cost containment measures and is therefore assessed as a very good performance.

1.E Capital Expenditure Performance

Total capital expenditure as at the end of the fourth quarter of the 2025 fiscal year amounted to approximately ₦420.967 billion, representing 71.5 per cent of the revised capital appropriation of ₦588.840 billion. This level of budget execution reflects an excellent capital expenditure performance, demonstrating sustained progress in the implementation of priority infrastructure and development projects across the State.

It should be noted that expenditure data for a limited number of projects and programmes were still undergoing reconciliation at the time of finalisation of this report. All outstanding information will be fully captured and validated in the Full-Year Budget Performance Report and the Audited Financial Statements, in line with established financial reporting procedures.

1.F Underperformed/Overperformed Revenue Line Items

Some revenue line items are overperforming, largely due to the concerted efforts of the State Internal Revenue Service, the Revenue Mobilisation Department of the Office of the State Accountant-General, and the State Government as a whole through the establishment of a Revenue Mobilisation Reform Committee, which has strengthened the State's revenue collection mechanisms. However, certain line items continue to underperform, primarily due to unforeseen challenges encountered by some MDAs in collecting revenues under these categories. Nonetheless, there is optimism that overall revenue performance will continue to improve in the coming periods.

Basic Education and Primary Healthcare implementation:

The State has made notable progress in strengthening service delivery in Primary Healthcare (PHC) and Basic Education, in line with the Eligibility Criteria and Disbursement-Linked Indicators of the HOPE-Governance Programme. Investments in PHC infrastructure, staffing, and essential supplies have improved facility functionality and access to quality primary healthcare services, thereby supporting reductions in maternal and child mortality. In the Basic Education sector, reforms focused on teacher recruitment, classroom rehabilitation, and strengthened governance have enhanced access and service quality, contributing to efforts to reduce the number of out-of-school children. Overall, performance in both sectors reflects the State's strong commitment to results-based reforms, accountability, and sustained improvements in service delivery.

Overspending:

Some Economic Lines and Agencies have recorded over-expenditure as mentioned below. These issues will be addressed through the end-of-year general budget review before publication of the Full Year Report.

The following are the agency and the economic line items with overspending:

- 051700500300 Local Education Authority (LEA)

Economic line items

- 21010101 Salary
- 21020104 Rent Supplement
- 21020109 Leave Transport Grant
- 21020112 Inducement Allowance
- 21020137 Medical Allowance
- 21020156 Professional Teaching Allowance

1.G Conclusions

In conclusion, the implementation of the 2025 Budget as of the end of the fiscal year reflects a generally positive performance in both revenue generation and expenditure, with notable progress recorded across key sectors. The introduction of the Supplementary Budget and subsequent budget

reviews further strengthened the State's fiscal framework by realigning resources with emerging priorities and enhancing overall budgetary flexibility.

Although some revenue line items and expenditure components performed below expectations, the overall trend indicates satisfactory performance. Appropriate corrective measures are being implemented through established budgetary and legal processes to ensure full compliance with the Fiscal Responsibility Law, while reinforcing transparency and accountability in public financial management. Beyond fiscal outcomes, budget implementation during the year demonstrates the Government's strong commitment to addressing critical social development challenges. Increased personnel expenditure arising from the recruitment of teachers to fill identified gaps in the State Basic Education sector, alongside sustained capital investments in education infrastructure, underscores deliberate efforts to reduce the number of out-of-school children. Similarly, substantial allocations and capital expenditure in the health sector, including investments in healthcare facilities, personnel, and essential services, reflect the Government's continued focus on improving access to quality healthcare and reducing maternal and child mortality rates across the State.

Overall, fourth-quarter performance underscores the Government's commitment to prudent fiscal management, efficient resource allocation, and improved service delivery. With sustained implementation of education and health sector interventions, ongoing reforms, and continuous monitoring of revenue and expenditure trends, the State remains firmly on course to achieve its fiscal, social, and developmental objectives for the 2025 financial year.

5 Primary Healthcare Budget Performance

5.A Overview

The State Primary Healthcare has a final approved allocation of N32.123 billion out of the total Health Sector allocation of N69.253 billion, representing approximately 46% of the sector's total provision. This allocation covers personnel costs, operational expenses, developmental projects, and other healthcare management initiatives across the State.

Based on the data available at the time of compiling this report, the State Primary Healthcare sector recorded an expenditure utilization of approximately N14.658 billion, representing 45.6% of the total approved allocation. This expenditure comprises Personnel Costs, Other Recurrent Expenditure, and Capital Projects. Detailed information on Primary Healthcare expenditure performance is presented in the sections that follow.

A summary of the performance Year to Date (YTD) against the original budget is provided below for the main economic classifications of expenditure, and YTD against the programme segment (Objective level).

A summary of the performance Year to Date (YTD) against the original budget is provided below for the main economic classifications of expenditure, and YTD against the programme segment (Objective level).

6 Basic Education Budget Performance

6.A Overview

The Basic Education sector allocation includes N28.024 billion for Salaries and Wages and N1.100 billion for Other Recurrent/Overhead Costs, as well as N40.395 billion for Capital Expenditure under the revised budget. These provisions support Basic Education developmental projects and other education initiatives across the State.

According to this report, the State Basic Education sector recorded expenditure utilization of approximately N62.740 billion, representing about 90.2% of the total approved allocation. This expenditure covers Personnel Costs, Other Recurrent Costs, and Capital Projects. Detailed information on Basic Education expenditure performance.

It should be noted that there was a misinterpretation in the Basic Education (BED) Q2 report, which has since been reviewed and corrected accordingly.

A summary of the performance Year to Date (YTD) against the original budget is provided below for the main economic classifications of expenditure, and YTD against the programme segment (Objective level).

A summary of the performance Year to Date (YTD) against the original budget is provided below for the main economic classifications of expenditure, and YTD against the programme segment (Objective level).
